

Your business.  
Your exit.  
Your way.

# You made it. Now make it out.

| One of the biggest challenges of selling a business or stepping aside is knowing where to start. Creating a succession plan can seem overwhelming at first, but with guidance, we believe that any owner can form their own exit strategy. That's where Your Succession comes in.

The DIY succession &  
exit planning program

# Grow your business before you go.

There's no sense in putting a 'fixer-upper' on the market. Discover where to invest on improving your processes and structure *before* you sell. Your Succession will teach you about the key motivations of your market to attract the best price.

# Simple steps for your exit strategy.

Delivered in group workshops and with a self directed workbook, you'll be guided to make the right choice about who to pass the business on to, get your affairs in order and manage a seamless handover.

The program also provides business owners with the tools to streamline business operations and finances, and provides their successor(s) with the best advice on how to carry on the business and preserve its legacy.

## Part 1: Succession Ready

Over five, full day sessions across five months, you'll tackle internal factors of exit planning, including refining your business model, corporate governance and revenue preservation.

## Part 2: Exit Ready

Assemble your team, strategy and documents to create an actionable plan to sell the business, and attract buyers who are willing to pay more. Includes a 90 Day Action Plan.

# Why Your Succession?

## Approachable

Delivered in a high energy, open forum style, we cover all the questions that plague business owners in need of an exit strategy.

## Cost-Effective

For just \$990 a month, you'll receive invaluable tools, information and support to help maximise value upon exiting your business.

## Informative

Hosted by a Succession Plus Accredited Adviser, courses are held regularly around the country, and include step-by-step instruction for your succession plan.

## Get exit ready.

Once you have completed a Your Succession workshop, you will be certified as Exit Ready. This unique certification program is designed to give both yourself and your successor/buyer a high level of comfort and confidence to ensure a successful transition.
